
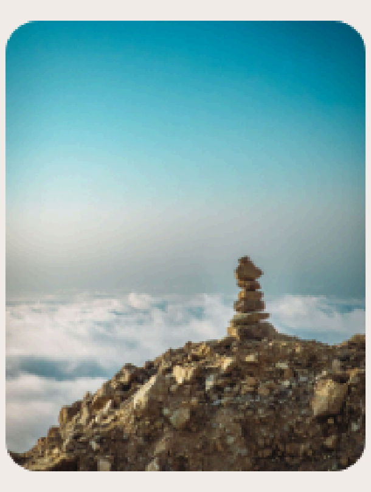
CAIRN

Know if a trek suits you before you go.

↓ SCROLL TO EXPLORE

Five questions. One honest answer. Take the quiz →



Every summit starts with an honest answer.

Cairns are the stacked stones that tell you the way is right. We built CAIRN to do the same before you leave home.

Every dot is a trail you can open.

Spin the globe from northern Thailand to the Tongariro Northern Circuit. Tap a route to see its line, grade and weather.

Explore the globe | Browse routes

Everything for the trek, on one route page.

Is it right for you?
A verdict of comfortable, good challenge or stretch, with the reason for each check.

Weather at the top
Seven days for the trailhead and the summit, with warnings for storms, gusts and freezing mornings.

A day-by-day plan
Pick a start date, days and pace. Get distances, climbs and tips for each day.
AI-generated

A packing list
Gear for this route and season. Save it, edit it, tick it off as you pack.
AI-generated

The grade moves when hikers say so.

Every route keeps its official grade. When reviewers keep finding a route harder, the community-adjusted grade shifts, and your verdict uses it. Both stay on the page so you can see the difference.

EXAMPLE ROUTE

Official 2.53

● Easy ■ Moderate ◆ Hard Strenuous

Community-adjusted from hiker reviews. Shown beside the official grade, never instead of it.
